These are optional for all levels of care

- PerfectCPR for Apple Watch
 - https://dl.dropboxusercontent.com/u/66999433/Collaborative%20Protocol/CollabProtocol_CPRWatchApp_v3.mp4
- Hudson Mohawk REMO Update (While this video presentation was created for the REMO region, it is a nice general overview of the collaborative highlights): KEEP in mind their current protocols are different from ours so it does not reflect all the changes from our current protocols. Please ensure that you overview the CNY, Midstate, North Country 2017 Collaborative update summary

-
- Please work with your agency CME Coordinator and CIC of record if you would like NYS CME Program (Pilot Program) credit for completing this education.
 - AEMT, CC, and Paramedic Providers will have the didactic portion of their June 30th Regional CME requirements waived if they complete this education and it is signed off by the CME manager and follow the above requirements if you would like to utilize it for your NYS CME program (Pilot Program). **Skills are still required to be done for the semester ending June 30th, 2017.**
 - This attestation must be in your agency training file.
 - Agency Training Officers- it is recommended that you put together an agency training to complete protocol updates.
 - RSI training will be done regionally; you are not required to watch the RSI simulation video.

I attest that I have completed each of these online trainings required for my level of care
